Hayden Lake Run — E Hayden Lake Rd pace notes

Finish → Start (south end to north end) · 14.63 mi · 225 calls · generated from the lidar-matched road and the car's verified racing line

Read each line as: **corner** (direction + grade), **modifiers**, then the **distance to the next call** in metres (**+** = "into", the next corner follows straight away). Grades come from what the corner allows on grip, 6 fastest to 1 slowest. Sections match the in-game checkpoints, so you can learn and practise the stage a chunk at a time.

	**6**	fastest grade (just lift)		**4**	medium		**1**	slowest grade
	**HP**	hairpin / switchbback		**SQ**	square (~90°, short)		**K**	kink — flat out
	**long**	bar over the arrow; two bars = very long		**<**	tightens		**>**	opens
	**! / !!**	caution / big caution		**/**	crest (over /\ = corner on a crest)		**\/**	dip
	**~**	bump
